The Difference Between Sun, Moon, and Rising Signs

- Sun Sign: Your core personality, identity, and ego. - Moon Sign: Your emotional self, subconscious patterns, and inner feelings. - Rising Sign (Ascendant): How you present yourself to the world, your outward demeanor, and first impressions. While the Sun and Rising signs are often emphasized for outward behaviors, the Moon's placement offers a window into your inner world, allowing you to understand your true self beyond surface appearances.
