Understanding the Suspend Icon in Sunrise EMR

What Is the Suspend Icon?

The suspend icon in Sunrise EMR is a graphical interface element—often represented by a pause or stop symbol—that allows users to temporarily halt specific actions, data entry, or workflows within the system. Its primary purpose is to give clinicians and administrative staff control over ongoing tasks, enabling them to pause operations without losing progress or data. This feature is particularly useful during complex workflows, when a user needs to attend to other tasks, verify information, or prevent accidental data modifications. By suspending an activity, users can revisit and resume the task later, ensuring accuracy and reducing errors.

Where Is the Suspend Icon Located?

The suspend icon typically appears within various modules of Sunrise EMR, such as: - Patient charting interfaces - Orders entry screens - Billing and coding sections - Workflow automation panels Its precise location may vary depending on the module and the version of the software, but it is generally positioned near the action buttons or within context-specific toolbars.

Features and Functionalities of the Suspend Icon

Core Functionalities

- Temporary Pausing: Allows users to suspend ongoing entries or processes without finalizing or committing them to the system. - Workflow Management: Facilitates better control over complex procedures by enabling users to pause and resume workflows seamlessly. - Data Preservation: Ensures that data entered before suspension remains intact and can be revisited later. - Error Prevention: Reduces the risk of accidental data modification or premature submission by temporarily halting actions.

Additional Features

Clinical Documentation

Clinicians can suspend charting activities if interrupted by urgent patient needs or other emergencies. They can return later to complete documentation, ensuring thoroughness and reducing cognitive overload.

Order Entry and Management

During medication ordering or lab test requests, staff can suspend an order if they need to verify details or consult with colleagues, thereby preventing incorrect orders.

Billing and Coding

Billing personnel can suspend processing tasks if discrepancies arise, facilitating review and correction before submission,

which helps prevent claim denials.

Workflow Automation and Task Queues

In systems integrated with workflow automation, suspended tasks can trigger notifications or be assigned to other team members for follow-up, enhancing collaborative care.

Limitations and Challenges of the Suspend Icon
